Japanese Wine Spec Sheet**

Vineyard:	Kisvin. Inc.
Founded:	2013
Vineyard Notes:	Kisvin winery is the work of 37 year-old winemaker Mayu Saito. Kisvin currently farms 14 grapes on 5 hectares of vineyards near Koshu city. Grape varieties include international varieties such as Chardonnay, Pinot Noir, Syrah and Zinfandel but also include local varieties such as Koshu. Grape cultivation has been active in the region since the Nara period [ca. 710-794]. The wines of Kisvin are modern and yet restrained on the palate; the hard work of a single mother deeply invested in putting Japanese wine on the world map

Tasting Notes
This sparkling wine is made from Yamanashi-native Koshu grapes. Consider this wine as a unique Japanese expression of popular regional styles of sparkling wine such as Cava (Spain) or Prosecco (Italy).
