Japanese Shochu Spec Sheet

Brewery	Higa Shuzo
Founded	1948
Profile	Located in Yomitan Village in the center of Okinawa Prefecture, Higa Shuzo's headquarters and factory enjoy the fresh sea breeze and land that is rich in nature. Their philosophy centers on "Smile Be Waves." Higa Shuzo wants Zanpa to put a smile on everyone's faces and spread smiles like the waves of Okinawa. Zanpa is ready to be a part of new and old meetings, conversations, and heartfelt moments. In their commitment to quality, Higa Shuzo has obtained an FSSC 22000 certification, and they are committed to environmentally friendly initiatives such as the installation of a solar power system and recycling of manufacturing wastewater. The distillery also offers a diverse product lineup to suit various occasions.

Food Pairings
Fried foods, meat dishes, fish dishes, etc.

Tasting Notes
Zanpa White is one of Higa Shuzo's flagship products alongside Zanpa Black. Based on the concept of creating awamori that is easy to drink for those who are not used to drinking awamori, Zanpa White was born through trial and error and the development of a unique distillation device. Zanpa White has become a well-loved and long-selling product.
This 24% ABV version of Zanpa White was developed for the U.S. market with a fresh new label and bottle to convey the charms of Okinawa. Awamori is typically filtered once after distillation, but for Zanpa White, a double filtration process is employed, resulting in clean and smooth flavor with a soft finish, making it very easy to drink. Notes of green banana, white florals, sweet orange peel, walnut, and baking spice on the nose. A more herbal component, similar to angelica root, emerges on the palate. Enjoy it straight, on the rocks or mixed with club soda. Zanpa White served with citrus fruits such as lemon, lime, or Okinawan shequwasar (シークワサー) can create a lovely tropical escape.
