

Mutual Trading, Inc. Japanese Sake Spec Sheet

Brewery	AMABUKI SHUZO CO.,LTD.
Founded	1688年
Profile	Amabuki produces premium sake using high quality, soft water that flows from Mt. Sefuri, located Northeast of the brewery, and yeast isolated on flower blossoms. The result is more fragrant sake that even those new to sake can immediately enjoy! Our focus on exclusively native flower yeasts, local rice & water sources make our products uniquely beautiful.

Tasting Notes
Made with local Saga Rice & purple Forbidden Rice, with cherry blossom & strawberry blossom yeasts, this rose nigori junmai sake that can be enjoyed by all the senses. The eyes take in the beautiful color and delicate cloud of rice. The nose is vibrant and fruity with notes of red cherry, golden apple, banana and candied citrus peel. The flavors are savory & mouth-filling, with fruity flavors of apple, pear, marzipan, sakura-mochi and lingering umami. The texture is stunningly silky, like cherry blossom petals, themselves.
