Japanese Sake Spec Sheet

Brewery	Ryujin Shuzo
Founded	1597
Profile	Ryujin Shuzo's underground water is very soft and feminine, lending to their brewers the power to draw out the hidden flavors in their rice. Their aim is to create flavorful, mellow, high quality sake that warms the heart upon drinking. They like to combine their traditional skills and methods with the brewer's heart. To this end, they work hard to improve their skills every day to work towards the next challenge, and brew excellent beer in the off season.

Tasting Notes
An enticing and elegant aroma that refreshes and cleanses the senses. Splendidly blanced with a finish like a gust of cool wind on a warm summer day. Floral and grain notes.
