

Mutual Trading, Inc. Japanese Sake Spec Sheet

Founded	1998
Profile	Most Japanese beers are primarily brewed using imported barley, however, these Hyakumangoku Beer series, crafted by Waku Waku Tezukuri Farm Kawakita are made by brewers who invest their hearts and souls in growing the best barley themselves to live up to their belief and motto: "beer making starts from barley making."

Brewery Location	Ishikawa Prefecture

Nose
Black chocolate and coffee

Flavor
Balanced between flavors of bitterness, sourness and sweetness, and suprisingly light.

Food Pairings
Meat dishes and Western dishes

Tasting Notes
Brewed with locally grown "six-row barley" from Ishikawa prefecture. Very flavorful beer with smoky chocolate & coffee-like aroma, with a deliciously hoppy finish.
